

Destinations of school leavers in 2018

Below is an overview of where our year 11 leavers went on leaving the Federation as of September 2018 .

As the chart shows :-

- 50% went to colleges across Greater Manchester on to mainstream or specialist provision within the college
- 6% went into an apprenticeship as a paid employee with access to completing qualifications related to their vocation
- 8% went onto Government Youth Training programmes called Study programmes or Traineeships as pathways to Apprenticeships in the future
- 19% went onto a Personal Package – for those young people who felt their best route towards employment was through keyworker supported work experience alongside one to one support to prepare for the world of work
- 7% were still being provided with help and support to enable them to engage in Education Training and Employment when they were ready to do so.

If you have any queries about the future options when you or your child leaves school please e mail Mike Solomon on Michael.Solomon@careerconnect.org.uk or call 01612345670
